Community Chest campaign workers advanced \$4,082 nearer to their goal of \$53,200 today when they gathered in the dining hall of the First Christian church for their third report session. This afternoon the grand total subscribed stands at \$49,667.

Unwilling to see their drive fall short of its objective—for the \$53,200 is the "minimum" required to finance the Chest's nine vital organizations during the coming year—the team members plan to return to the diamond church for another report meeting at noon Thursday, November 3.

Expect To Reach Goal
That day they hope to see subscribed the greater part of the \$13,533 needed for victory.

Dr. G. S. Bennett, pastor of the First Christian church, gave today's dinner invocation.

Mrs. Grace Phillips Johnson, able general chairman of the drive, again presided. Assisting her in the con-

PA NEW C OBSERVES

With the opening of the hunting season it may interest you to know that one hundred thousand dollars a year is spent by the game commission in restocking cotton tail rabbits. Most of the rabbits that are brought here are caught in box traps in Missouri. When they are shipped east they must be placed in separate boxes or they will kill each other.

A Scott township farmer has just completed harvesting three thousand bushels of potatoes, one of the largest crops so far reported in Lawrence county. They were raised on about sixteen acres of land and are of a fine quality. As high as four hundred bushels of potatoes have been raised on an acre, but this is very unusual. The crop of the Scott township farmer is better than the average.

The political campaign is now coming down the home stretch. One week from today state chairmen and county chairmen will be making their predictions of victory. Both sides will express confidence, even if they are whistling in the dark to keep up their courage. The campaign has been notable for its mud slinging and snarl bawls will be in order after it's all over.

An enterprising trucker was seen on the East Side Saturday with a load of corn on the stalk and pumpkins. He was selling for Halloween parties, and was doing quite a thriving business. Not every person would think of such a timely way of making money. Brains count, whether found in the skull of a trucker or a college professor.

Sunday Night Radio Drama Causes Mass Hysteria In U. S.

(International News Service)
NEW YORK, Oct. 31.—Shaking off dread visions of meteors, death rays and monsters from Mars, a relieved America today emerged from a wave of mass hysteria reminiscent of war time.

After hours of intensive work by police and radio stations, alarmed persons from Maine to California were finally reassured that the horrifying report of disaster—death and destruction—which they heard over their radios last night was merely a dramatization of H. G. Wells' make-believe version of the end of the world.

The nation-wide panic which disrupted households, interrupted religious services and performances in theaters, caused traffic jams and jammed communication lines, was a radio dramatization of Wells' fantasy, "War of the Worlds" which its adapter feared might be "too old-fashioned for modern consumption."

Instead, it created a disturbance and situation unprecedented in radio history and one that comes under the scrutiny today of Frank R. Mc-Ninch, chairman of the Federal Communications Commission.

But the Columbia Broadcasting System, over whose network of wires the dramatization was carried, and its adapter, Orson Welles, 23 years old, expressed regret over the misunderstanding on the part of radio listeners.

(International News Service)
HENDAYE, French-Spanish Frontier, Oct. 31.—Insurgent Generalissimo Francisco Franco, while mourning the death of his brother, today personally directed the opening of a large-scale offensive on the Ebro river front of Catalonia.

Seven hundred Spanish government soldiers were taken prisoners, according to insurgent advices, when Franco's forces drove the government arm out of the Caballeros mountains. Fourteen government airplanes were reported shot down.

Five Planes Downed.

A war bulletin from Barcelona, on the other hand, asserted that fighting for possession of the strategically important heights continued. Five insurgent planes, said the government, were shot down.

Both sides, however, confirmed that a major insurgent drive, which Gen. Franco hopes will give his warriors important advantages before the worst winter weather sets in, was under way.

WASHINGTON, Oct. 31.—The federal communications commission today called on the Columbia Broadcasting system to submit a complete transcript of its startlingly realistic broadcast last night, "War of the Worlds," for investigation by the commission.

In announcing the commission's action, Frank R. Mc-Ninch, commission chairman, said that while he was withholding judgment until he had examined the case, it appeared to him that "any broadcast that creates such general panic and fear as this one is reported to have done, is, to say the least, regrettable."

Mc-Ninch said that he had telegraphed Columbia for the transcript and promised to ask the commission for quick action. Although there were reports the agency had been flooded with telegrams of protest, the chairman's office announced that only 10 had been received this morning.

Utah Slayer Is Shot To Death

Scientific Camera Takes
Pictures Of Heart Of Man
Executed Today

(International News Service)
SALT LAKE CITY, Utah, Oct. 31.—John W. Deering, 40-year-old confessed slayer, was executed today by a firing squad in the Utah State prison here while an electro-cardiograph scientific camera took motion pictures of his heart action.

Deering went to his death at 6:45 a. m., after consenting to having his heart photographed as he died.

Five men with rifles performed the execution. Four of the guns were loaded. All four bullets penetrated his heart.

The experimental phase of the execution was inspired by a desire to determine how long a man lives after a bullet pierces his heart.

WASHINGTON, Oct. 31.—Railroad acceptance of the findings of President Roosevelt's emergency board against the 15 per cent wage cut sought by the carriers today appeared a virtual certainty.

Danger of a nationwide rail strike consequently appeared averted.

While road executives maintained official silence since the findings of the board were made public Saturday, privately they expressed almost unanimous opinion that the fight is over and that they have lost. In view of the board's recommendation, they appeared to believe that the wisest policy for them was to keep step with the president's determination to maintain wages at the highest possible level.

Turn Towards Legislation

Today, the roads were already turning their studies toward a legislative program through which they can seek help for their present distressed condition from congress.

The president was to confer with J. J. Peley, president of the Association of American Railroads and George M. Harrison, chairman of the Railroad Labor Executives' Association, during the day, but prior to that Peley was to meet with members of the Carriers joint conference committee. This group, headed by H. Cabinet Called To Approve

STEERED ECONOMY
IN NEW PROGRAM

PARIS, Oct. 31.—Armored with the full support of his powerful radical Socialist party, and rid of the shackling influence of communist participation in the government majority, Premier Edouard Daladier today called together the cabinet to approve a series of iron-fisted decrees.

Aimed to speed up production, increase the national income, and pull France out of her present grave financial and economic plight, the decrees are being kept secret, but their general nature is fairly well known.

Returning from the radical Socialist congress at Marseilles, and going direct to work on his own huge task, Finance Minister Paul Marchandeau informed the press: "Most of the financial and economic decree laws have been prepared for days. They have been carefully studied."

A modified form of what Minister of Commerce Fernand Gentin called "steered economy" will be announced to the cabinet, according to reliable predictions.

Changes in the 40-hour work week law, especially in the defense industries, with less pay for overtime, and alteration of the five-day week are planned, for Daladier is determined to make the wheels of industry, now far too idle, turn faster.

BERLIN, Oct. 31.—With German-Polish negotiations set to open in Warsaw tomorrow, between 8,000 and 12,000 Polish Jews deported from the Reich today were being slowly accommodated in homes or special camps.

In Germany, many more thousands who had been taken to the Polish frontier were transported back to their residences to await outcome of the negotiations.

Fate of the latter group hangs in the balance, but it seemed certain today that all Jews in the Reich face a new program of anti-Jewish retaliation.

Estimate 600,000 Hunters Invade Forests Of State

(International News Service)

HARRISBURG, Oct. 31.—The dawn came up without benefit of shotgun thunder today as Pennsylvania's small-game season opened on a mid-morning "zero hour" with thousands of red-capped nimrods invading forest and field across the state.

This year's army of hunters, estimated at 600,000 strong, withheld the almost traditional daybreak barrage. By order of the state game commission, the accent for 1938 hunting was on safety, and no game could be killed until 9 a. m.

Eligible prey starting this morning were rabbits, squirrels, ruffed grouse, quail, hares, wild turkey, rumpneck pheasants, woodchucks and raccoons.

Move For Safety
Hunters themselves annually have been added to the toll of slaughter, but game commission officials hoped that pre-season warnings and advice on conduct while afield might hold fatalities to a minimum.

SANKEY-HAMILTON CEREMONY SATURDAY

Beautiful and marked by simplicity was the wedding Saturday of Miss Margaret Rebecca Sankey and Frank Spencer Hamilton, which was solemnized at 4:30 o'clock in the afternoon in the home of the bride's uncle and aunt, Dr. and Mrs. Robert M. Eagleson, 1406 East Washington street.

A period of nuptial music was played by Miss Kathryn Newbury, and as the Lehengrin wedding march was sounded, little Mary Margaret Eagleson, cousin of the bride, as flower girl, descended the stairs, and strew a path of rose petals leading into the living room. She wore a shell pink affetta frock, made too length, trimmed with tiny ruffles caught by dainty baby blue bows. Her accessories were white.

The bride was lovely in a gown of aqua taffeta with full skirt, floor length, which tapered off into a slight train. A deep ruffle spaced with bands of solid pink taffeta, bordered the hemline, and rhinestone clips were her only decoration. She wore silver accessories and her arm bouquet was of white gardenias and a daisy of the same flowers adorned her head.

Miss Mabel Koehner, as maid of honor, preceded the bride. She was attired in a coral taffeta gown made similar with long floor length skirt, featuring a short ruffled train. She carried a matching muff on which reposed a dresden bouquet and her accompaniments were silver.

Carl Megan of this city, served the groom as best man.

The vows were exchanged in front of an improvised altar of palms and ferns with a huge cluster of white chrysanthemums centering the arrangement. The Rev. Chester T. R. Yeates, pastor of the Third United Presbyterian church, officiated and he was assisted by the Rev. Stewart Sankey, an uncle of the bride. The single ring service was used.

A congratulatory period and a reception followed with relatives and friends numbering upwards of 75 participating.

Mrs. Eagleson, aunt of the bride, wore a navy cut velvet on a royal blue background, with gold accessories. Her shoulder corsage was of yellow rose buds. Mrs. T. W. Hamilton, mother of the groom, wore a teal blue crepe dress with silver trimming and a shoulder corsage of pink rose buds and baby mums.

Aides in serving the beautifully appointed buffet lunch were the S. A. B. club associates of the bride. The dining room table was appropriately decorated for the occasion with a three-tiered wedding cake decorated with yellow rose buds and silver bells adorning the center. On either side were crystal candle holders with matching tapers. Baskets and standards of yellow and white chrysanthemums were placed in every nook and corner, lending further to the colorful setting.

Gifts received by the couple were displayed in an upstairs room.

Following the bride and groom left on a wedding trip, and upon returning will reside on Warren avenue.

Mrs. Hamilton, a graduate of Westminster College, has been doing substitute teaching in the city schools. She is the daughter of the late Wells and Anna Eagleson Sankey. She is the son of Mr. and Mrs. Thomas W. Hamilton, of 911 Adams street, is affiliated with the Hernon Hardware Company here.

DOROTHY SPANGLER WEDS CALIFORNIAN

The home of Mr. and Mrs. Wilbert E. Spangler, 934 Beckford street, was the scene on Saturday afternoon of a simple but impressive wedding ceremony, uniting their daughter Dorothy Esther and Ramon R. Blair, son of Mr. and Mrs. F. P. Blair of San Francisco, Calif.

The vows were exchanged at 2:30 o'clock before the fireplace in the living room in the presence of guests numbering 35 or more. Decorations throughout the home were chrysanthemums and bittersweet. The Rev. F. F. Neigh, retired Methodist minister, officiated.

The bride was lovely in an afternoon gown of parlance beige crepe and lace made along tailored lines. Her bouquet of Talamas roses, boardavia added a touch of color and she wore brown accessories.

As maid of honor, Miss Dorothy Carrick appeared in a pretty afternoon gown of wisteria crepe with plum accessories and Miss Betty Jan Spangler, sister of the bride, who served as junior bridesmaid, wore a tropical tan metallic dress, patterned along similar lines. Both wore shoulder bouquets of pompons and Johanna Hill roses.

Mrs. Spangler, mother of the bride, was attired in a mist beige lace creation, supplemented by a shoulder corsage of pompons and roses to harmonize.

B. H. Ross, Jr., of Mars, Pa., was best man.

During the reception that followed, the guests were favored with special vocal numbers by Miss Betty Jane Spangler. Later, a dainty buffet lunch was served by Miss Margaret Rhodes, with Mrs. Robert Benson and Miss Betty Smith aides.

The bridal table was centered with a large tiered wedding cake, with pastel tones predominating throughout.

Mr. and Mrs. Blair received a collection of beautiful wedding gifts, which were displayed in an upstairs room. Another testimony to the high esteem in which they are held.

After November 10 they will be "at home" to friends on Spring avenue, in Ellwood City, where the groom is temporarily with the Matthews Conveyor company. Later, they will make their permanent home in San Francisco, Calif.

The Parent Problem

By Garry C. Myers, Ph. D.

LAUD CITIZENSHIP THEORY
SOME TIME ago the following letter came to me from Carl V. Weygandt, chief justice of the Supreme Court of Ohio:

"Dear Dr. Myers: -- For some while I have meant to write to commend you on your syndicated column to parents, which I have read in Columbus and a number of other cities.

"It is gratifying to observe the way you lead your readers to the conclusion that citizenship begins at home, that the basis of good citizenship is regard for the rights of others, and that this attitude is built best in the child from his early years, by understanding, sympathetic parents who co-operate.

"Home Restraints"
"I like the way you emphasize the need of responsible home restraints, especially of the young child. Properly, you also recognize the contribution to good citizenship by character-building agencies, church and school.

"You appeal to the right persons. There is no substitute for parents of the proper sort.

"No matter how much we may dislike to admit it, the fact is that the present young generation is just about as bad and just about as good as we parents have trained it to be.

"Sincerely,
"Carl V. Weygandt."
As you can imagine, I was happy as I read this letter. I didn't suppose any state supreme court justice would take the time to read this column. That Chief Justice Carl V. Weygandt, whose public services and example as parent have so appealed to me for years, should commend anything I write has surpassed my fondest dreams.

Practical Idealism
I had the honor to meet Judge Weygandt a number of years ago in a small discussion group of which we were members. I remember the privilege I had, on several occasions, to chat with him there, first while he was a member of the Ohio State Legislature and later while he was judge of the common pleas court at Cleveland. His practical idealism gave me a new vision of what a public servant can be.

Our conversation usually centered about parents, children and youth. He was very enthusiastic about such character building agencies as the Y. M. C. A., K. of C., scouting and the like. For years he taught a large bible class of boys every Sunday morning. He gave generously of his time to youth groups and for many years refereed high school and college football games. I have often wished my boys might have come directly under his personal influence. We parents are grateful for such men among our public servants.

What Noted People Say

(International News Service)
NEW YORK—Prof. Albert Einstein, discussing with Dr. Allan Roy Dufee the marvel of the Dionne quintuplets:

"Yes, and I guess the mother should have some credit, too."

KANSAS CITY—Dr. Edward S. Godfrey, president-elect of the American Public Health Association, urging states not to adopt systems of medical care until ready to administer them properly:

"It is no use to bring in the public in need of good medical care only to turn them over to pills-and-bottle men."

NEW YORK—Dr. Walter O. Robinson, public speaking specialist teaching grammar and diction to New York's World's Fair guides:

"Almost any one may be taught to speak pleasingly, effectively. The trouble with most persons is that they become too tense in the effort. We must learn to conserve energy for our thoughts."

Just Folks

FACT AND FANCY
To what I am my hands are tied,
But fancy running free
Comes back at times to take me out
to what I longed to be.

And let me, as a sailor-boy go sailing
out to sea.

Sometimes when sleep disdains my plea
upon my back I lie.
The dull-grim ceiling overhead
becomes a starry-sky.

And watching out for sister ships a lookout lad am I.

The timid-souls who pace the decks
and buy what merchants sell
Come with a nervous little laugh
to ask if all is well.

And glad am I it falls to me
consoling news to tell.

Then here's to chance, that turned
my feet upon the paths I tread.

But here's to fancy that has kept
safe lodgings in my head.

And gives me ships to sail upon
and rolling decks to tread.

Bible Thought For Today

Judgement also will I lay to the line,
and righteousness to the plummet;
and the hail shall sweep away the refuge of lies,
and the waters shall overflow the hiding place.

HINTS and DINTS

Sun sets tonight 5:00; sun rises tomorrow 6:28.

It is predicted in Washington that pork will be more plentiful. It may be, but it will be the kind to eat, and not the political variety.

You can vote as you please at the November election, no matter what threats have been made to you to hold your job. Vote as an American as you have a right to do.

No doubt a lot of the birds in jail would like to get out to vote. In some jails they would have to tell how they would vote before they were let out.

Cool miners in Pennsylvania will have to take an examination to prove they are fit before they can go into a mine to work. Seems to us that any man who has nerve enough to go into a mine to work is fit to do most any big job.

Often when a singer is introduced the master of ceremonies says three numbers will be sung. If any orator was introduced to give three speeches the audience would leave at once in a body.

"Ah," said a guest, being driven toward a host's home. "I see your dear son and daughter awaiting us on the porch."

"No," said the host. "The girl in the short frock is my mother, and the young fellow in riding breeches is my wife."

Every day many trucks and salesmen come to New Castle from Ohio. If any trucks would go from here into Ohio to peddle stuff they would be stopped at the state line. Buy from home merchants.

A Wall Street broker walked up to a friend and said, "Say, pal, can I trouble you for \$2?"

"Give me \$2," came the reply "and you can trouble me for the rest of the afternoon."

A PRAYER
God grant to me an open eye, an open heart,

An open ear for sounds!
If blessed with these the world becomes
A place where joy abounds.

An open eye to see the hills
In majesty uprise
That sees the flowers by the way,
The tints of evening skies.

A heart that beats in unison,
With kindred hearts around
That loves and in return is loved
Where sympathies abound.

An ear that hears the song of bird,
And lists the hum of bee,
That loves the voice of little child
That prattles by the knee.

God pity him who is deprived
Of senses such as these,
Or having eye and heart and ear
Yet finding naught to please.

This world will prove a dreary place
And heaven have no cheer
For those who fail to use God's gifts
So freely offered here.

What became of that fellow who hated school so? Oh, he's always bawling into those radio question-and-answer and spelling bee programs.

Reader's Questions Answered
Dear Miss Markel—How should I address a college professor? I have known him for quite some time and have always called him Mr. Brown. When I speak to him or introduce him should I refer to him as Professor Brown?

Answer—If he has a doctor's degree and uses it generally, speak to him and introduce him as Dr. Brown. If he has not, his proper title is "Mr." Professor Brown is not correct. Even "Dr." is scarcely used outside of the classroom.

American Attitude Irks Hitler
Would Like To Apply Muzzles
Dodd, Baruch, La Guardia Irksome

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, D. C., Oct. 31.—Diplomatic relations between Washington and Berlin are beginning to verge on the rather unpleasant. There is no definite friction of any kind. Nevertheless Germany is perfectly aware that Uncle Sam's Administration is not overly friendly to Nazi-ism and our own government is equally aware that the Nazis reciprocate its tacit dislike of their system. Italian Fascism also doubtless is looked on somewhat askance by the State Department. However, Signor Mussolini never has been quite so crass as Herr Hitler. Japan, the third of the world's totalitarian powers, has been tolerably civil in its relations with the United States. True, we sympathize with China and the Mikado unquestionably knows it. And there have been some little "incidents" between us in connection with Nippon's activities on the Asiatic mainland and its rivers. All the same, Washington and Tokio mutually have preserved the amities.

Russian Friendliest

Among the dictatorships I think Russia is the country toward which our officialdom entertains the kindest feelings. Even that isn't so very kindly either, but it's notorious that Germany and Russia are hostile to one another, and of the two, at present we most dislike Germany.

There is evident a sentiment in our foreign office to the effect that Britain and France have "dumped" democracy; but that's a feeling of sorrow, not of anger.

Of course this country is scandalized by Nazi treatment of the German Jews and Catholics, and by Hitlerism's domestic methods generally.

But all that's not our business. It's when Nazi-ism tries to set up its organization in our own midst that it becomes irritating. The movement may not have been in-

spired from overseas, but there's a suspicion of it.

There has been, too, this German spy trial in New York. It's been ridiculous—with its revelations of amateurishness and of \$50 monthly salaries to espionage agents—but it has succeeded in "sideswiping" German Ambassador Dieckhoff in Washington. It's reported that he shortly is to go home in consequence. That's quite a major development.

Then, there was the case of our late ambassador to Berlin, William E. Dodd. After a short stay in the German capital he was so disgusted with Nazi-ism that he resigned, returned to the U. S. A. and, ever since, has been "pining" Hitler unmercifully.

Before that, it will be recalled that Mayor Fiorello H. LaGuardia of New York urged that Herr Hitler's image ought to be displayed in a "chamber of horrors" at New York's 1939 World's Fair.

Yet more recently Bernard Baruch has dwelt upon the necessity for a world-wide democratic armament against totalitarianism.

Whose Business Is It?

Herr Hitler doesn't like this kind of anti-Nazi chattiness in non-German countries.

He suggests that folk like La Guardia, Dodd and Baruch ought to be muzzled, and that our newspapers ought to be muzzled likewise.

Answered to the effect that President Roosevelt hasn't the authority to muzzle such spokesmen or the press in the U. S. A. Hitler rejoins that HE can do it in Germany. Why can't President Roosevelt do it here? If he can't, says Hitler, he should be able to.

Why, he queries, isn't our government able to do so?

Incidentally Adolf sketches governments in Britain, France and elsewhere that will be acceptable to him. He hasn't dictated to Uncle Sam yet, but he may presently.

He has a pretty clear idea already as to what our policy should be in Latin America.

The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1938 King Features Syndicate, Inc.

The first known story about German spies was written by Tacitus, the Roman Historian, somewhere around the year 100 A. D. He told of their methods of secret communication in the days of Charlemagne; they used a disc code with one forward-reading alphabet and six backward alphabets. In the Franco-Prussian war, they used an ancient Greek device, consisting of a rod and a spirally wound parchment which could be deciphered when wound only a certain way.

Against the lurid backdrop of historic spy melodrama, our German spy trial seems quite a modest and tame disclosure. There is a red-headed girl to be sure, but E. Phillips Oppenheim couldn't send her to model one of those sleeve-eyed, slinking suborners of treason which the script calls for in cases like this. There was a bit of anticlimax, too, in the army sergeant putting an advertisement in a German newspaper, saying he would like a spying job, and the Germans coming through with another ad in a New York paper, telling him to report for duty.

I have an idea that the government and their G-men have just been skimming the surface of this spy business, involving not only Germany but other nations. One may read a book called "The Enemy Within" published about a year ago, for overdue news of what the Germans were getting away with before and after our entrance into the World War. There was certainly nothing hesitant or casual about their efforts in those days, and the odds are that that holds for today.

While the Germans seem to be taking all the tricks now, both in espionage and propaganda, all over the world, the fact is that they aren't very good at spying. Britain's Sir Alfred Ewing, grizzled little Scotchman, ran rings around them during the World War. Sir Alfred, with a night-and-day staff of fifty cryptographers in his famous Room 40 of the Department of the Admiralty, made the Germans look like a lot of rookies in the sky league. It would be difficult to elude any one man who did more to win the war for the Allies.

One of his best bets was the fake code message. He would rig an order for troop or fleet movements in some easily broken cryptogram. The Germans would decode it handily, gloat over their sagacity and make the tactical blunder which Sir Alfred had planned for them. He was a scientist and mathematician, and he rigged some of the slickest codes ever invented anytime. Some of his feats in breaking down enemy codes were all but unbelievable.

We were dewey innocents in the spying and coding business when the war started. However, working up puzzle talk, our kids sent in critically devised code, to their colleagues in Europe. It was "PSMM"—Old Sir Alfred glanced at it and read it like a billboard: "Pestling sails Monday morning."

We did better than that as the war went on, and after the war, Major Herbert O. Yardley's "Black Chamber," the State Department's decoding and decoding office, worked authentic black magic in breaking codes and uncovering spying activities.

I am informed that, with second thought and disinterest, the government is again cucking up an ear to alien whispers and subversions and that we have an underground organization which knows a

lot more about what the foreign spies are doing than it lets on. The spy mania of the war years is not a happy memory, and one hopes that present goings on will not incite an army of amateur spy-chasers. The whole business is not exactly in our national Karma, but neither is tame submissiveness to foreign espionage and sabotage. I have an idea that we shall be just oozing around quietly.

An old Athenian general, whose name I have mislaid, tells of the nearest cryptogram trick of the centuries. They would shave a slave's head, tattoo a message on the bald skull and let the hair grow. The slave would deliver himself, submit to a haircut and the message would be read. Then they would kill the slave so they wouldn't be bothered hiding him. Fortune are the bald-headed men. They won't have to take up this line of work. But youngsters may, if the slave keeps on winning over the free state.

A great many interesting events are going to happen on Tuesday, November 8th, and probably the most interesting of these events will be the election results in the States of Pennsylvania and California. The State of Pennsylvania has had four years of cock-eyed legislation and the voters of this State have an opportunity of ending this on November 8th. The State of California has before it the most revolutionary proposition ever offered to the voters of any State of the Union.

Sheridan Downey is a candidate in the State of California for the office of United States Senator. Of what political Party is Sheridan Downey? You know in this most deplorable primary system foisted upon us by Roosevelt I, any citizen now can run and call himself a Democrat, a Republican, a Progressive, a Communist, a Socialist—a anything, and all of them, if he wishes. The voter knows when he votes for such a candidate that he is giving a vote to one who has no one idea and that is personal power. Sheridan Downey is such a candidate. He was nominated at the California Primary on the Democratic, the Progressive and the Townsend Ticket and his name will so appear on the ballot. He is the man, not Chamberlain, the State Department's decoding and decoding office, worked authentic black magic in breaking codes and uncovering spying activities.

Words of Wisdom

It is bad manners to stop on a crowded thoroughfare and talk with a friend you have just met. If you wish to chat with an old friend, walk slowly on with him instead of standing and getting in other people's way.

I know that we must trust and hope, and neither doubt ourselves, nor doubt the good in one another.—Charles Dickens.

Reflections

By J. K.

In the splendidly equipped stable of the new Troop K Armory there are several bright, modern out-
shoots which operate something like a water spigot. Lift up the lever of a shoot and out pours a stream of oats into the bucket beneath. Somehow or other, maybe a little bird told them, the troop horses caught on to the idea and began making a practice of leaving their stalls whenever possible, trotting to the shoots, pushing up the levers with their noses and pouring for themselves extra rations.

Now, as each cavalry horse is given nine pounds of oats, 14 pounds of hay and 5 pounds of straw every day, this horse sense wasn't appreci-
ated by Sergeant Measel, boss of the stable, and so he set up a couple of heavy wooden "horses" around the shoots, thus flogging the animals who were so much in favor of cafeteria style.

The new armory, located near the parking grounds of Cascade Park, is probably one of the most beau-
tiful and conveniently planned in the state. For the use of the cavalrymen and the officers there are comfortable offices, a lounging room, locker rooms, showers, class-
rooms and dining hall, a completely equipped kitchen, and so on. A huge furnace and heating system have been installed.

For the horses there are roomy stalls, and in a short time they will have a fine blacksmith shop. Their oils, brushes and saddles are kept in military trim. And best of all (for them) they aren't bothered any more with civilian riders. The troop doesn't rent out the mounts anymore (orders from head-
quarters.)

A huge area inside the building is used for troop drills. Thus the men can put the horses through their paces at any time, icy weather will not slow up the activities.

In the matter of the final account
of Maud C. Miller, guardian of

Saturday has been continued

Petition of the Union Trust Com-
pany for approval of a partition in
the estate of Charlotte Magee, late
of the fourth ward and for an order
of distribution, was granted. The
account showed that a parcel of
land had been sold to O. Dominick
Cloff for \$500, and that there was
\$128.77 available for distribution. It
was ordered divided among eleven
heirs.

County Treasurer V. I. Mandich
has experienced some trouble by
eleventh hour taxpayers, but they
were nothing compared to the on-
slaught of applicants for hunting li-
censes last Saturday. From the time
the office was opened until it closed
at 4 o'clock in the afternoon there
was a constant waiting line at the
window. The office usually closes
at 12 o'clock on Saturday, but
Treasurer Mandich kept it open to
accommodate the hunters.

In an answer filed to a suit
brought by the Atlantic Refining
Company against the Mahoning
Valley Sand Company in which the
plaintiff claimed \$274.94, the Sand

company denies that it owes this
amount to the Refining Company.
It seems that the sand company
furnished sand and gravel for the
erection of two service stations by
the refining company. The refin-
ing company sold oil and gas to the
sand company. The sand company
admits that it owes the refining
company \$113.98, and has made a
tender of that amount, but the re-
fining company would not accept.
There were some complications in
the account owing to the fact that
the contractor who was building the
gas stations failed to finish them.
They were finished by the refin-
ing company, who are alleged to have
used the materials furnished by the
sand company to the contractor,
without giving credit.

county, \$14,455.00. The poor taxes
filed for the year 1936 amounted to

Dr. Daffoe's Column On The Quintuplets And The Care Of Your Children

Copyright 1938, King Features Syndicate, Inc.

All my years as a practicing physician I have been a strong advocate of cod-liver oil. But since I have seen what it did for the Dionne Quintuplets I am stronger for it than ever.

I am bringing this subject up now because this is the time parents should begin giving this great food and medicine to their children. Yes, I'll go farther—it's time for them to start taking it themselves!

Cod-liver oil has always suffered from an unsavory reputation, largely because, before chemists learned to refine it as they have now, the taste was pretty rank. In fact, I suspect that most of you who read this will remember the oily fishy preparation which was the only cod-liver oil we knew.

So I have found it much easier to get children to take it by calling it by another name that fits it to a T—"Bottled Sunshine". The Quints have had their cod-liver oil daily since they were two months old. It has given them rosy cheeks, strong bodies, happy hearts. And they love their Bottled Sunshine; they've had so much of it we sometimes call them the Sunshine Girls.

When I say they love oil, I'm not exaggerating. It's a regular routine morning and evening with them. They take their bottle and spoon to the nurse so she can pour it out for

Two Reel Film For Wesley M. E.
Picture Of India Will Be Shown In Local Church Friday Evening

"Touching Untouchables," a two-reel motion picture filmed among the low caste and outcaste villages of India and graphically picturing the everyday life of a fifth of the nation's people, will be presented on Friday evening at 7:30 o'clock in the Wesley M. E. church under the sponsorship of the Sunday school.

Church people of all denominations will be interested for the picture portrays a phase of service in which missionaries of all Christian churches are engaged. The story is laid in a typical outcast section of a rural Indian village, the kind of village and the kind of social environment in which 70,000,000 Indians live. The hero of the story is Sarkat, a young Indian lad from of "untouchables."

The picture is a vivid and realistic portrayal of the great social change going on today among the "lower strata" of the Hindu social system, largely because of the incoming of Christian western ideals and teachings.

but it's part of your own home town

ALMOST anyone you know, anywhere in the world, is within reach of your telephone voice. Telephone service is state-wide, nationwide, world-wide.

Yet your telephone service is largely a home-town service. Most of the calls you make are to people nearby. And most of the telephone people who serve you live and work in your own home town. Some of them are your friends and neighbors.

This company must be big to serve 1,220,000 Pennsylvania telephones. The Bell System must be big to serve the entire nation. Big because its job is big. But when

you take the system apart, you find that it is simply a large number of home-town people, working together to give all the people the finest telephone service in the world at the lowest possible cost.

Is your home or office equipped to take full advantage of modern telephone service? An extension telephone saves time and steps; affords extra protection, privacy and convenience. You can have another telephone in your bedroom or kitchen for surprisingly little! Ask the Business Office or any telephone employee for further information.

Mutual understanding and cooperation between the people of this company and the people we serve are essential to the high quality and low cost of your telephone service.

The Day of Specialization
The day of specialization is here. In the field of medicine alone there are scores of different specialists. In fact, there are in modern medicine, specialists who confine their practices to one or more ailments to which the human body is subject. The field of pharmacy has also become highly specialized in recent years—there are institutions that specialize in prescription compounding. Such pharmacies maintain staffs of experienced dispensers, whose efforts are entirely devoted to compounding prescriptions and catering to the needs of physicians. We, too, are specialists in the practice of pharmacy. When your prescriptions are compounded in our pharmacy the work is done by graduate, registered pharmacists, who are true specialists in their profession.

Says Peace Of Munich Made Hitler Master Of Europe

Knickerbocker Sees Future War

Munich Settlement Altered Balance Of Power Of All Europe

AGGRESSOR NATIONS HAVE MEANS TO WIN

By H. R. KNICKERBOCKER
International News Service Staff Correspondent

NEW YORK, Oct. 31.—War yesterday was a probability, and the defeat of Hitler Germany a certainty. War tomorrow is a probability, and the victory of Hitler Germany a strong possibility. The "peace of Munich" made Hitler the master of Europe, and will cost tomorrow the lives of many million more men than were risked yesterday.

That is the net result of the crisis which blinded the world with terror, then left it limp with relief, and now compels the half-cleared minds of its victims to perceive that worse is to come.

For the Munich settlement so altered the balance of power that the aggressor nations have for the first

time become possessed of the means to win, and now as never before time works in their favor. They were willing to risk war with the odds against. Can there be any doubt that now with the odds in their favor, they will risk it again and again until they reach the inevitable breaking point?

Yesterday's position was: Hitler had arrayed against him certainly England, France, Russia, Czechoslovakia, Rumania and Yugoslavia; probably against him was Poland, while Italy would have been at best neutral, despite the axis. In the background was the United States, strongly sympathetic to the democracies, and world opinion was unanimously against the German aggression. The lineup was much more unfavorable to Germany than in 1914.

Marital Relations Are Discussed At College

(Special To The News)

NEW WILMINGTON, Oct. 31.—"Marriage based on physical attraction alone is sure to fail," Dr. Eugene Jamison, head of University of Pittsburgh health department for women, told Westminster college students in the second-session of the Y. M. C. A. course in marital relations, speaking on the subject, "Courtship."

Courtship ought to get students acquainted with at least one of the opposite sex, Dr. Jamison suggested, but preceding courtship should come a period when many friends are made among the opposite sex. Dr.

Jamison warned against experimentation in the field of sex, and suggested personality as an alternate. "Know her or his family during courtship," warned the Pitt health director, because it may prevent later trouble.

Companionship should be on a moral, spiritual and intellectual plane during the period of courtship, instead of physical, Dr. Jamison told students. "Petting satisfies the vanity," concluded Dr. Jamison, "but if it is made into a game, it will continue so; and make it easy in paving the way for a poor marriage-choice."

Correct this sentence: "Our group had an excellent guide" said the traveler, "so we saw everything in the country worth seeing."

Why don't statesmen do the obviously sensible thing? Well, you know you can end a cold quickly by going to bed, so why don't you do it?

Clad in full hunting regalia, the hunting army left the Seventh ward bright and early this morning to begin the annual hunting season on time.

Although the season did not officially open until 9 o'clock, many hunters were ready and on the road many hours before day-break.

Each year the hunters wait with anticipation for the opening day in order to be the first to get a shot at the elusive rabbit or the graceful ringneck.

Home Coming Is Greatly Enjoyed

At First Congregation-
al Church

There was a splendid attendance at the First Congregational church and home-coming services on Sunday.

During the Sunday school session C. W. Herman Hess made an appropriate address.

At the morning preaching service the following program was rendered: Contralto solo by Miss Cecelia Hughes; selection by the ladies chorus of the church, directed by Miss Florrie Davies; reading by Miss Frances Cope; pianoforte solo, Miss Betty Hughes; duet, Misses Betty Fowler and Lavina Thomas.

The topic of Rev. Rees T. Williams, the pastor, was "Co-Workers With God."

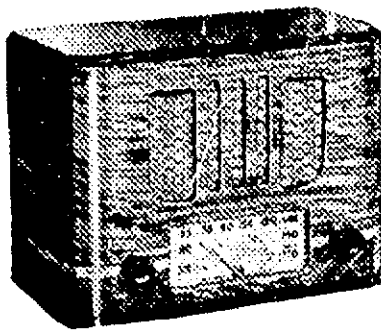

A musical program was also given at the evening service as follows: Contralto solo, Miss Florrie Davies; anthem by the choir, directed by John M. Evans, Miss Cecelia Hughes singing the solo; baritone solo, David Lewis; two selection by the Men's Bible class male chorus, directed by David Lewis and Clifford James, accompanist.

Rev. Williams took as his subject for the evening sermon, "The Church That Prevails," delivered in an inspiring manner.

Many former members and friends from out of town attended throughout the day. Members of the Emanuel Baptist church joined the First Congregational in celebrating the home-coming.

Statement By President Is Taken As Endorsement Of Earle, Jones

PRESIDENT GIVES HIS POSITION

(International News Service)
PHILADELPHIA, Oct. 31.—Accusing Judge Arthur H. Jones of misusing his name in connection with the jurist's gubernatorial campaign, President Roosevelt today had endorsed the Democratic state ticket of Governor George H. Earle for U. S. senator and Charles Alvin Jones for governor, in the November 2 elections.

In answer to an accusation by Judge James G. O. P. candidate, that he was "unwilling to put my hands in that muddy water," the president defined his position in a letter to Michael Francis Doyle, prominent Philadelphia attorney and member of the permanent court of arbitration at The Hague.

Recognizing the fact there are "local and personal issues wholly distinct from the national issues," Mr. Roosevelt wrote:

"But in my own relations with the Earle administration, I can truthfully say that I have found it at all times willing and eager to help in carrying into effect a liberal program for social and economic justice.

"It seems to me that liberals in Pennsylvania, irrespective of party," remarked the president, "can scarcely place their trust in the liberalism or desire for social justice on any candidate sponsored by such obvious reactionaries as the well-known Messrs. Annenberger, Grundy and Pw." The chief executive referred to M. L. Annenberger, publisher of the Philadelphia Inquirer; Joseph R. Grundy, industrialist, and Joseph N. Pw, Jr., wealthy oil man, Judge James' principal backers.

Reiterating his previous statement that "I am not asking voters to vote for Democrats as opposed to Republicans," the president flatly accused Judge James of "deliberately misrepresenting" his stand in the Pennsylvania campaign.

The chief executive remarked in his letter that he felt "I have the right to speak out in those instances where there has been a clear or deliberate misuse of my name."

"I do not think it amiss," Mr. Roosevelt continued, "for me to point out there is a clear inconsistency in his (Judge James) position in appealing for the votes of opponents of the New Deal on the ground he is opposed to the New Deal and in appealing for the votes of liberals on the ground that I am actively participating in the Pennsylvania campaign."

Presidential endorsement of the Democratic state administration closely followed speaking appearances in Pennsylvania of Secretary of Agriculture Henry Wallace, Attorney General Homer Cummings and Senate Majority Leader Alben Barkley.

Using our influence doesn't impress foreign nations if they are sure we'll use nothing more drastic.

Goldberg Suffers Torn Ligaments And Goes To Hospital

(International News Service)

PITTSBURGH, Oct. 31.—Marshall Goldberg, the great Pitt fullback, was in a hospital today with torn ligaments suffered in Saturday's game in which he helped his teammates pile up a 24 to 13 victory over Fordham University.

It was not immediately known whether "Biggie" as he is known on the Pitt campus will be lost to the Panthers for next week's tussle with Carnegie Tech. Goldberg left Saturday's game for a short period and then returned to score two touchdowns for the Panthers despite his injured leg.

Several hundred students organized an unsanctioned demonstration on the campus this morning, noisily proclaiming Saturday's rout of the Fordham Rams.

Keystones Top Wabash Bears By Score 12-6

Marks And Hammock Ring Up Keys Touchdowns Before 5,000 Fans

The Keystone A. C. football team Sunday staged the biggest upset of the local independent grid season by handing the hitherto undefeated Wabash Bears a 12-6 defeat to remain in the running for the city league championship.

Franklin R. Crisell, president of the league, announced today the same two teams will meet next Sunday at the E. & A. field for the championship. A crowd estimated at close to 5,000 witnessed the game yesterday, expecting to see the Keys wiped off the field. Instead, the Keys played marvelous football.

Copple Tallies.

The Bears scored first in the opening period when Copple intercepted a pass on the Keystone 25 to put the ball in scoring position. The Bears drove straight down the field for the 25 yards and Copple punched his way over.

The Bears had two scoring opportunities in the second period, fumbling the ball once on the Keystone 5 and again taking the ball to the 5 where they met stiff resistance from the Keystone's line.

It was in the third period that the Keys made things interesting for the Bears. Hammock set the stage for the first Keys' touchdown by intercepting a pass on the 20, and running it to the 20. Pat Zinzaro from the 5 flipped a pass that Gordy Marks took and raced over. Gordian missed the extra point.

Hammock Wins Game.

The second touchdown for the Keys came in the fourth period with the Keys starting a drive on their own 30 and hitting for big gains to the Bears' territory where Hammock scored on a sweeping end run after a pass. Zinzaro to Marks, had set the stage.

The standout ball players in the game were Jake Rema, Leslie Leonard, Madiesek, Hammock and Zinzaro for the Keys and Toscano, S. Russo, Copple and Adams for the Bears.

The lineup: Wabash Bears—Madiesek, L. E. ... Toscano, L. E. ... Leonard, L. T. ... Albert, L. G. ... J. G. ... Dombroski, A. V. ... R. G. ... Piccolini, R. G. ... Kirkwood, R. G. ... Russo, W. G. ... "Beattie" Feathers, Brooklyn Dodger backfield veteran, is confined to a hospital with a fractured skull received in yesterday's game with the Washington Redskins. The game ended in a 6-all tie.

While Washington retained leadership in the Eastern division of the National pro league, top position in the Western section was captured by the Green Bay Packers. They beat Cleveland 28-7. Detroit beat the Chicago Bears 13-7.

Westminster And Thiel In Scoreless Battle

(Special To The News) NEW WILLIAMSTOWN, Oct. 31.—Westminster college failed to break into the win column and had to be satisfied with a scoreless tie against Thiel college, even though the Titans outmuscled, outpassed, and outplayed the visitors, Saturday. The game was the feature spot in the annual Dad's Day for the New Willamington school.

Lapowski's two attempts for field goals for the Titans in the third and fourth quarters were good, one of them just passing under the crossbar by a few inches.

The Greenville eleven failed to get possession of the ball within Westminster's 20-yard stripe, and not once made a serious threat. But Ted Davis intercepted pass which netted 55 yards and a "touchdown" was called back because the Thiel line was offside on the play.

Quite frequently during the game, the Titans were hurled back to their own goal line, and at one time, they were pinned to their own one-foot line just before "Chuck" Snyder pointed out of the hole.

In the final quarter, Chuck Ridd and Julius Lapowski, covered half of the field for the Titans in three plays. Lapowski's 25 yard gain over tackle brought the ball to the Thiel's 21; and Lapowski put Westminster on the fourteen yard line. There, on the last down, the Titans' second try for a score by way of the field goal route was unsuccessful.

Ridd put the damper on Thiel's last minute "do or die" attempt, when he intercepted Snyder's long pass. On the play, Ridd was tackled back about ten yards by a Thiel player, and after the tackle was made, the two players went into

lists. They were separated by their own teammates and Referee Allison ejected Ridd from the field and penalized Westminster 15 yards, which brought Coach Washbaugh out into the field for the first time in his college career.

Westminster's scoring threats were marred by five fumbles; but they did double duty on their defensive work when they didn't allow Thiel to complete any one of their nine passes.

The Titans made 10 first downs to Thiel's five; and gained 175 yards from scrimmage, more than twice that of the Tomcats.

Captain Throp, Tony Valicenti, and "Case" Leposki played good games for the home team. Ted Davis and Ed Wyatt stood out on the line; while Snyder and McComb gave Thiel their best gains. Harry Shoup's kicks, some of them spiraling over 60 yards, gave Westminster a decided edge.

The lineup: Westminster Pos. Thiel Miller LT Harter DePaulis LT Maute Throp LG Doda Ruffe C Wyatt Ruffe RG Martin Manula RT Riffer Frisch RE Davis Shoup QB Clare Valicenti LB Larkin Black RT Snyder Edwards FB Kirkland Substitutes—Westminster, Evans, off. Officials—Referee, Harold Allison (Allegheny); field umpire, Dave Behrhorst (Allegheny); head linesman, Dan McClure (W. & J.).

Monessen High Here On Friday Will Be Final Home Game For New Castle High "Red Hurricane"

Monessen High will play a night game with New Castle High here on Friday night at Taggart Stadium. It was announced here today by Faculty Manager Scoots Nelson. There was some talk of this game being played Saturday afternoon but it will go on Friday night.

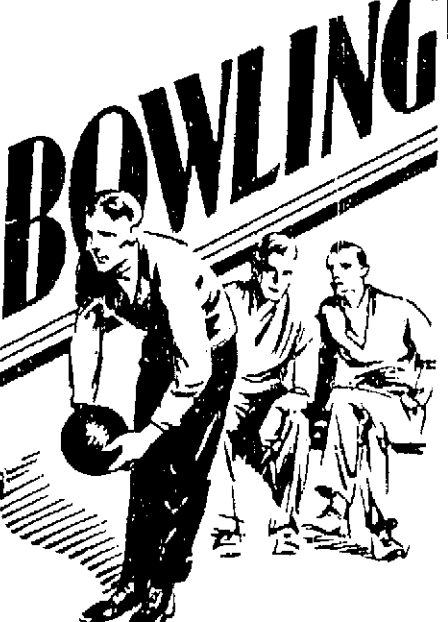

The New Castle "Red Hurricane" was back on the practice field today to try to smooth out a few of the rough spots that cropped up in the defeat by Massillon High. It is hoped that the New Castle team will be in better shape this week for the Monessen game than they were against Massillon.

Three Games Left

The only doubtful injured man is young Joe Gender and the injury he got at Warren has kept him inactive ever since.

Monessen High will send a big fast team here. This is a Class A battle and the final home game of the year for the "Canes."

New Castle has three games left including the Monessen game. Next week it will be New Castle at Martins Ferry and Thanksgiving Day at Sharon.

Pitt And Dartmouth Are Eastern Leaders

(By Collegian) Sectional leaders in all parts of the nation were firmly established by nightfall Saturday as a result of a week-end of football wars which saw the elimination of more undefeated teams. In the East, Pittsburgh eased into top position by virtue of the Panthers' smashing 24-13 verdict over Fordham. Villanova's cream was spoiled last Friday by the South Carolina Gamecocks, who held the high-powered Wildcats to a 6-6 tie. This leaves only Dartmouth to lay challenge to Pitt's supremacy.

Tennessee continued to pace the Southern race by whipping power Blue Devils 14-5. Duke's loss also kept their state clean by taking North Carolina, but they, unfortunately, have a November date with Pitt. Northwestern's 6-3 victory over Minnesota nudged the Gophers out of the Midwest picture and gave Notre Dame's mighty Irish undisputed possession of the peak.

For a likely Rose Bowl prospect, keep your eye on Texas Christian, South west leader, whose amazing power has snowed under all opposition so far. Temple, Centenary, and Baylor have all wilted before the Horned Frogs. And if you like comparisons, Texas Christian and Pitt trimmed Temple by the same score, 28-6.

California's Golden Bears, 1938 Rose Bowl champions, maintained their perfect record for this season by downing Oregon State by a 13-7 score on Saturday and appear headed toward another Pacific Coast title. Just whether or not the Bears would represent the Coast in this year's Rose Bowl classic, ever if they did finish the season unbeaten, is something of a puzzle.

California is scheduled to meet Georgia Tech on Christmas Day, and this would leave the Bears a scant six days in which to prepare for the Eastern challenger.

Probably the most astounding upset of the week was dealt out by Penn State's screwball (no other

term fits) squad which buried a highly-favored Syracuse team under a 33-6 score. The fireworks began as early as the third play of the game when Chuck Peters wheeled around his own right end for 80 yards and the Lions' first score. After that, Harry Harrison, Craig White, Steve Rollins and the same Peters drove Syracuse crazy with deep reverses and wide end sweeps.

Syracuse beat Cornell; Cornell whipped State; State whammed Syracuse; it doesn't make sense to us, but it does indicate that if the States are having an "up" day when Pitt comes along the Panther will have a merry afternoon trying to pin down the wild-eyed Lions.

Staging a fine comeback after several dismal starts, Duquesne's Night Riders emerged a winner over the Detroit Titans at Forbes Field Friday. The Titans picked up a touchdown in the first period to lead 6-0, but the Dukes countered with a pair in the second quarter and hung on to their advantage to win 14-6. Carnegie Tech, with an eye on Pitt, nearly booted away its game with Akron. The Akron Zippers' talons (advertisement) weren't sharp enough, however, and a last-quarter drive gave the Tartans a 27-13 win.

In other district skirmishes W. & J. beat Geneva 14-7. Slippery Rock put the skids under Grove City 12-0. Westminster was held to a 0-0 tie by Thiel, and West Virginia faced Youngstown 27-6.

When, contrary to our predictions, Temple and Detroit were beaten and Villanova was tied on Friday, it began to look like another bad week-end for our battered average. Saturday's results were more favorable, and for the week we managed to call fourteen out of sixteen winners correctly, with three best score forecasts were a tie. Best score for Slippery Rock 13-0, for Grove City 12-0, and a 20-7 over Geneva for Cornell over Columbia (23-7). Our record to date now stands: Right 64, wrong 17, ties 7, percentage .790. Going up!

Bessemer Keeps Clean Grid Mark

McDonald High Falls Before Powerful Bessemer Attack Saturday, 33-6

(Special To The News) BESSEMER, Oct. 31.—Trampling up and down the gridiron like miniature University of Pittsburgh eleven, Bessemer high school's flashy team kept its 1938 record intact by demolishing McDonald high, Saturday afternoon, at Bessemer. The final score, 33-6.

(Special To The News) Digging their cleats into the dirt with determination that would not be denied, the Red and Black clad gridmen paid two visits over McDonald's goal line in the opening chapter. After reaching the visitors' 25-yard stripe, a few minutes following the kick-off, Zornich, right half, who was stationed over the last yard line, stepped back and shot a pass into the waiting arms of Kennedy, who was stationed over the extra point placement.

On a sustained drive, Bessemer reached the foot mark where Kennedy plunged over for the second score. Paced by Peltio, a substitute, the Cement City aggregation marched to the McDonald 9 in the second. Kennedy ripped through the line for Bessemer's third score. Peltio again took matters into his hands, sagging a one-man show. On successive plays he grabbed the oval on the Bessemer 45, and reached the McDonald 1, where Shuliga, another substitute, went over.

McDonald's lone score came in the third quarter when Krumpack broke away, dashing 70 yards for a touchdown. Bessemer's final visit into paydirt resulted when Shuliga passed to Moses from his own 30 to McDonald's 30. Moses then lateraled to Connors who scampered over the final chalk stripe. Moses placed-kicked the extra point.

Bessemer flashed too much strength for their opponents as they won their sixth consecutive game of the season and kept intact a record of not having lost a game in 12 conflicts. The entire Bessemer team was impressive in the triumph. Peltio, a sophomore, invades Freedom high's gridiron for its seventh tussle.

The lineup: McDonald—6 A. Drahuschak LT Watson P. Drahuschak LB ... Krumpack J. McCree ... G. ... Connors H. McCree ... G. ... Connors S. Skuta RT ... Shilby P. Pezzullo RE ... Milner DeArment QB ... Erdel Dornich LH ... Peltio Kennedy RB ... Krumpack Shoup FB ... Day

Afield And Astream

With Lawrence County Sportsmens Association By "Bert" Rick

After weeks of preparation, Pennsylvania's army of sportsmen entered the field today for their annual outing with dog and gun. At 9:00 a. m. the general small-game hunting season officially got under way within the greatest of all game states, Pennsylvania. To satisfy their primeval urge of the chase, thousands of hunters, after months of restraint, are again to be found in the woodlands of our outdoors.

Within Lawrence county, an estimated 5000 hunters journeyed to their favorite covers with high expectations of bagging a prize tripe, fleet-footed cottontail, or other denizens of the wilds.

All indications point to an abundant supply of game. Generous stores of depleted covers during the past year, together with a favorable season for growth and reproduction of the species sought for game, has combined to replenish the areas where a scarcity existed. Ringneck pheasants are especially numerous, and rabbits and other game are to be found in fair proportions.

It is heartening to note that the game commission, through the representation of District Game Protector Frank "Jewie" Coen, has taken measures to preserve for the hunters' future recreation in the county, the sport which they cherish. About 1000 acres of suitable land has been provided in the name of the sportsmen, for use as public hunting grounds. Options has also been secured on additional areas which will later supplement that already on hand.

These lands are situated in Plain-

Ellwood High Topples Aliquippa High 13-0 In Game On Saturday

ELLWOOD CITY, Oct. 31.—Displaying more power and fight than at any other time this season, the Ellwood City high school Wolverines made Aliquippa, Midland's lone humbler, their sixth victory on Saturday afternoon at Lincoln field by defeating the Steelers, 13-0. It was a proud day for Ellwoodians, being the first time in 10 years that their high school grid machine has been able to accomplish a like feat.

A large number of local fans took advantage of the perfect Indian summer day to see what kind of a comeback the Blue and White would make after last Saturday's lacing, and no one was disappointed in the victors, who played superior, heads-up ball all the way.

Shortly after the half the Croft machine staged a 63-yard march to score, with Newton making the final hurdle and Keller adding the extra point to put them out in front, 7-0. The final tally came a minute or two before the final whistle sounded when the alert Snare intercepted an Aliquippa pass and dashed 22 yards to make the score 13-0. The placement kick was wide.

In the matter of first downs Ellwood led, 11 to 4, and the Wolverines outgained the visitors in scrimmage, 187 yards to 22. Ellwood tried the air lanes only eight times, completing two for 20 yards, while the Steelers tried 11 passes and made five of them count for 71 yards. The locals' effective pass combination, from Jones to Snare, wasn't used at all during the contest.

The first quarter was uneventful, with both teams making only one first and ten, and much of the time was spent in punting. Barr was outstanding for Aliquippa in this period, making most of the tackles. Ellwood completely dominated the second quarter play, and although they were down to Aliquippa's 10, they weren't able to score. Beginning the period, Jones and Newton gained two first downs and then lost the ball. Kolch and Keller stopped Paradise and Woodward and the locals were again in possession, and an exciting feature of the game came when Snare took the oval from Jones on the ancient Statue of Liberty play and gained 19 yards before being stopped.

A pass from Jones to Snare, who lateraled to Bartle, added 10 yards. It was very near the half and Robuck was sent in to have the team try a field goal, which failed. Bartle recovered Aliquippa's fumble and in the next play Keller's place-kick was no good and the scoring opportunity for the period was ended.

Midway in the third quarter Ellwood took the ball on their own 37 and in the next three plays Newton slashed the line for 18 yards and then Jones skirted left end and added eight more, followed by six more made by Newton on a fake reverse. Once again Jones was around the left end and wasn't stopped by Woodward until he had added 20 more. Newton hit the line for a few more and once again Jones' end sweep was good for eight yards, and there was only inches to go. Newton hit the line and was stopped by the whole Aliquippa team, and in the next play he jumped over the pile of tangling lines to score. Keller's accurate toe added the extra point.

After the kickoff Brooks returned the ball for the 27, and a pass from Pasterick to Eymann was good for 26 yards, but Snare stopped the receiver in his tracks. Beginning the final period Pasterick passed to Morendo for 15 yards and Kolch made the tackle. In the next play Cunningham stopped Barr with a loss of 13 yards and they were forced to kick. They held Ellwood, and Jones punted back, with Brooks receiving and returning to his 49 before being halted by Kolch. In a last-minute attempt to score Aliquippa tried many passes. Pasterick attempted to pass was tackled by Cunningham and Keller for an eight-yard loss and the ball was on Aliquippa's ten. Then Snare intercepted a beautiful pass on his 22 and raced over unmolested to score. The extra point attempt failed. At this period Ellwood's second team was sent into action.

It looked as though Ellwood might score again when Robuck intercepted a lone pass on his 44, but the blue and white were offside and the play was called back and the scoring threat passed, and in a minute or so the game ended.

Miller and Cunningham, the local ends, played their best game of the season, and Keller and Farkas gave their usual super performance in the line, and every one of the backs were on their toes all the time.

Clark, Arzirkakis, Essey, Pasterick, Barr, Bronaugh and Paradise were best for the losers, with Barr being the outstanding player, making most of the tackles and being a fine kicker.

The local band performed at the half, with Bob Haines and "Sonny" McDowell giving their usual performance, and featured was an exhibition by Barr and Reilly of the V. F. W. junior drum and bugle corps.

Only three games remain for the Lincolns. Next Saturday they will entertain New Brighton at Lincoln field. On Armistice Day they will play Beaver Falls at Beaver Falls as a part of the Beaver county celebration, and November 19 will wind up their 1938 campaign at home with Bessemer. On Saturday New Brighton topped Beaver and Beaver Falls held the powerful Midland crew to a 7-0 score.

Man Is Declared As Legally Dead

Theodore Mass Of Ellwood City Has Not Been Heard From For Seven Years

Theodore Mass of Ellwood City was declared legally dead, following a hearing before Judge Thomas W. Dickey at the county court house this morning. The application was made by a half-sister, Agnes A. Strouse, in order that the estate of the late Margaret Leymarie Mass may be settled up.

The testimony of Mrs. Strouse and that of Frank Leymarie, the latter a half-brother of the missing man, showed that Theodore Mass had left Ellwood City about seven years ago. No reason was known for his leaving. A letter requesting that some money be sent to him at Warren, Pa., was received a few days after his disappearance. The money was sent but the letter containing it was returned.

Later a letter requesting money was mailed from Rochester, N. Y. The money was sent and the letter did not come back, so that it was presumed that it was received. Since then no word has been received of the missing man, and it is presumed that he is dead.

B. P. W. Clubs Have Meeting

Meadville Woman, State Vice President, Speaks Saturday Night

DELEGATES ATTEND FROM MANY CITIES

ELLWOOD CITY, Oct. 31.—"Faith is the force that moves the world. Without faith, human transaction would be impossible. Faith in your daily tasks, in your self, will give you dynamic enthusiasm and confidence," Miss Helen Remler of Meadville, vice president of the Pennsylvania Business and Professional Women's club, in a challenging, earnest address, told members of District 2 assembled on Saturday evening in the First U. P. church of this city for their fall meeting.

"It is amazing how little women counted in the history of the world till recent time, in fact until the last 50 years. It is true that Eve, the first woman, cut quite a figure but that was because she was the first woman and Adam, from all accounts, made such a poor showing. Adam seems to have been a dull fellow and hardly a gentleman, but Eve was different, a really brilliant creature. When Eve was put out of the garden of Eden, that was practically the end of women for centuries. You never heard of Mrs. Noah, did you? And Methuselah was a widower for 900 years, and seemed to get away very well. And so down through history," began blonde Miss Remler.

"Women then had no votes, no clubs, they didn't go to college and they didn't go into business. It is hard to tell where and how it all began. The thing to remember is that it did begin," she continued, "and now, having led us into business or professions, we won't be put out. To maintain this position we've much to consider. Adult education, for one thing, let's not meet the fate of the dinosaur, but follow our ancestors who observed, adjusted and survived, which gets us where we are today, but guarantees nothing for the future. Today conditions are changing rapidly, we must adapt ourselves to changes, or we shall find our lives in the position of the dinosaur, out of place in the modern world."

"Many who would like to continue their education do not because they feel they are too old to learn new skills. Oh, but be careful, if the old dog doesn't learn new tricks the blame must be put squarely upon the laziness of the old dog."

The speaker cited the opportunities of adult education through libraries and urged the cultivation of sports, keeping step with the styles, along with mental developments. "As we become skilled and earnest let's not forget to smile. Happiness is to be achieved only from sources that do not tarnish. About the most joyous thing anyone can have is a hard job every day and the courage to tackle it. I believe our destiny is to give the best of us, in the fullest measure to the daily tasks which are our lot. The peace and satisfaction of work well done, a goal for every member of the Business and Professional Women's club," she concluded.

Miss Florence Dickey of Butler, district chairman, presided in the afternoon and introduced Helen Kidd Thompson of Greenville, international membership chairman. Miss Thompson gave an enlightening address and said that the purpose of these meetings is to bring the national federation closer to each club member. There are 9,000 members and 48 clubs represented in the federation with Pennsylvania in the fifth in size. It is represented by 3500 women. She discussed the International Congress and said that European women have a great need for the women of United States.

An informal discussion followed her address and visiting clubs explained their educational projects and club work for the coming year. Delegates attended from Butler, New Castle, Indiana, Kittanning, Rural Valley, Punxsutawney and Ellwood City and there were special guests from Meadville and Greenville.

Miss Remler and Miss Thompson returned from New York on Saturday morning to take part in the program. In New York they attended the Herald Tribune Forum and a preview of the World Fair.

For the dinner, the dining room was decorated in green, gold and white colors and the stage in back of the speaker's table was banked with palms, ferns and baskets of huge yellow, white and copper mums. The tables were centered with baby mums of the same colors and crystal candle holders with green tapers. The delicious dinner was served by a group of the church women.

Miss Iva Jackson gave the invocation and Mrs. Margaret Skewis led pep singing. Mrs. Edith Barnhart, president of the Ellwood club, extended a welcome to the guests, after which Miss Jane Stevenson, accompanied by Mrs. Margaret Burns, sang two lovely solos. Miss Dickey introduced the out-of-town guests and while an interesting program closed with the club "collected" led by Miss Mary E. Van Diver, president of the New Castle club.

Shock Of Rail-Wage Decision Is Withstood In Satisfactory Fashion

By LESLIE GOULD

NEW YORK, Oct. 31.—The stock market today withstood in satisfactory fashion the shock of the fact-finding commission's recommendations against rail wage cuts.

Carrier shares broke 1 to 2 points at the opening, but recovered their losses before the end of the first hour. The general list, meanwhile, moved irregularly higher after momentary softness at the start.

N. Y. Central opened 1/4 lower on a sale of 4,000 shares at 19, then gradually moved up to within striking distance of its previous close.

Chesapeake & Ohio and Great Northern halted early declines of 2 points, while Santa Fe recovered 1 1/2 to 1/2 point.

Rubber shares led the recovery movement. U. S. Rubber common jumped 1 1/2, while the preferred spurred more than 2 to 100.

Good year and Goodrich added large fractions to Saturday's closing levels.

Bethlehem wiped out an extreme decline of 1 1/2, and U. S. Steel continued a half-point loss into a small gain.

In the motors, Chrysler halved a drop of 1 1/2, while General Motors converted a fractional decline into an equal gain.

These movements were typical of the general industrial list. Coppers, auto accessories, aviation and chemicals late in the forenoon showed a modest all-around improvement.

Utilities also chalked up small gains.

U. S. Gypsum, Industrial Rayon, General Electric and Case were among the stocks to maintain an even tone.

Commodities were quiet. Grains slipped fractionally. Bonds, particularly rail issues, were a shade easier.

Foreign security markets continued to mark time in dull trading.

HARRISBURG, Oct. 31.—Republicans looked today for a campaign endorsement from former Attorney General Charles J. Margiotti to climax this week's final drive for

Such a declaration was given special importance in the wake of President Roosevelt's letter of criticism for the G. O. P. standard bearer and of commendation for the Earle administration.

Margiotti was expected to follow up the Republican endorsement given by his ex-deputy and adviser, N. L. Wyward, with a statement throwing his support either directly or indirectly behind the Republican ticket headed by Judge Arthur H. James, candidate for governor.

There is no accurate estimate of that strength as of today, but there are many political observers who concede that Margiotti may well hold the "balance of power" in a close contest.

Splendid Program By Dana Ensemble

Music Lovers Have Treat At Franklin Auditorium Saturday Night

New Castle was favored Saturday night with a program of music by the noted Dana Ensemble, a quintet of Polish singers of rare ability.

To the appreciation of an audience assembled in the Benjamin Franklin Junior high school auditorium, these singers presented selections by famous European composers, and in several modern American melodies. The tenors, baritone and bass were assisted by Miss Hanka Brzezinska, soprano, the "Marion Talley of Poland."

Preceding the program by the Dana Ensemble, a splendid presentation of Polish folk dances by local young people dressed in colorful Polish costumes, was enjoyed by the audience. The boys and girls gave an excellent performance and received loud applause.

Kentucky Makes Move To Annul Child Marriage

Officials Seek To Impress Upon Mountain Folk That Child Marriages Not Tolerable

(International News Service)
PRESTONBURG, Ky., Oct. 31.—County authorities today pondered the ways of Kentucky's mountain folk and sought a way to impress them the state no longer tolerates child marriages.

They had found the district outraged and uncomprehending when told that the marriage of Fleming Tackett, 34, and 10-year-old Rosie Columbus would have to be broken up.

The girl's mother admitted she lied when she gave Rosie's age as 15 to obtain the marriage license, but couldn't believe the child and her husband would be parted now that it was all over.

County Attorney Forrest D. Short and County Judge Edward P. Hill were agreed the wedding could be annulled but were undecided on what action to take against the others.

Both Are Guilty.

"The seriousness of the thing can't be exaggerated," he stated. Mrs. Columbus is guilty of a fraud and Tackett is guilty of a criminal offense if he consents to the marriage. I am in favor of making an example of these people for the benefit of others in the region."

The couple were married last week by the Rev. W. C. Ratliff, a blacksmith during the week, who said he performed the ceremony without question when presented with the certificate.

Short said he had found an almost unbelievable condition when he visited the two-room log cabin yesterday. One room he discovered made the sleeping quarters for Tackett and his child bride, her 200-pound mother, her two small brothers and a sister, in addition to Tackett's brother Archie and his wife, formerly married to Fleming.

Record Made In Hunting Licenses

Over Seven Hundred Are Issued By Treasurer V. I. Mandich, Saturday

Over 700 hunting licenses were issued by County Treasurer V. I. Mandich on Saturday. The total number of licenses issued until 10 o'clock this morning is 3680 resident licenses, and 160 non-resident licenses. This is about 500 ahead of this time last year.

Applications for licenses were standing in line when the office was opened on Saturday, and all day long there was a steady stream. Treasurer Mandich kept the office open until 4 o'clock.

The rush began again this morning as soon as the office opened and continued all day. Indications are that the number of hunters taking out licenses will exceed last year's total.

Wells Is Perturbed Over Panic Caused By Radio Broadcast

(International News Service)
LONDON, Oct. 31.—H. G. Wells, the author, was deeply perturbed today at the panic caused by the broadcast in America of his "War of the Worlds."

"It was my understanding with the broadcasting company that the broadcast should be presented as fiction and not as news," said Wells. "I gave no permission whatever for alterations which might lead to the belief that it was real news."

The amazing story was splashed in the London newspapers, which recalled similar mass hysteria in 1936 when Father Ronald Knox, a British author of detective and mystery stories, broadcast a report of a fake Communist rising.
